SUMMARY

Results-driven Data Analyst with a strong foundation in data analysis and visualization demonstrated through impactful projects and hands-on experience.

Proven expertise in utilizing SQL, Microsoft Excel, Power BI, and PowerPoint to uncover insights and address business challenges.

I bring a unique blend of technical expertise, data analysis acumen, and effective communication to drive insights and facilitate growth within data-centric environments.

I thrive on uncovering patterns and trends that empower organizations to optimize processes, drive efficiency, and achieve their business objectives.

With a track record of delivering high-impact solutions and collaborating seamlessly with cross-functional teams, I am eager to contribute my expertise and drive innovation in a dynamic and forward-thinking environment.

KEY COMPETENCIES

- Data Analysis
- Data Mining
- Data Visualization
- Python Programming
- Data Warehousing
- Data Reporting
- Dashboards
- **Tools:** SQL; MS Excel (advanced); Tableau; Python; Power BI.

EDUCATION

2019 | Masters in Computer Application | Swami Vivekananda Subharti University Meerut, Uttar Pradesh, India

2016 | Bachelor of Science | Dr Ram Manohar Lohiya University Faizabad, Uttar Pradesh, India

Certifications

- Data Analyst Skillpath: Excel, SQL & ML with Python | Udemy
- Data Visualization for Data Analysis and Analytics | LinkedIn
- Virtual Internship in Data Analysis | Trainity
- Power BI in Data Analytics Virtual Case Experience | PwC [Pursuing]

Amongst my peers, I am regarded as  Analytical  Collaborator  Planner  Problem Solver  Communicator

WORK EXPERIENCE

Virtual Internship - Trainity.com | Data Analyst | Jul 2023 - Aug 2023

Enhanced my skills in data analysis and visualization with data projects and boosted my confidence in applying data-driven solutions to solve business challenges.

- Tech stack used - SQL, Microsoft Excel, Power BI and PowerPoint.
- **Projects undertaken** - developed dashboard for various live projects - ABC Call Volume Trend; Impact of Car Features; Bank Loan Case Study; IMDB Movie Analysis; Hiring Process Analytics; Operation & Metric Analytics; Instagram User Analytics.

Department of Basic Education as MIS Coordinator [Data Analyst] | Sep 2019 - Jun 2023

Worked in the Basic Education department (district level) of the UP Government; supporting the overall data analysis, and data visualization through dashboards for 3648 schools (covering 17000 teachers in 15 blocks).

- Assisted the data analysis team in collecting and cleaning large datasets from various sources, ensuring data 100% accuracy and reliability for district-level data, salaries, leaves, admissions, and results release.
- Assisted in creating data visualizations and dashboards using Power BI, presenting key insights to stakeholders for a better understanding of organization performance.
- Performed exploratory data analysis using Power BI, Excel and SQL to identify patterns, trends, and outliers, contributing to more informed decision-making.
- Assisted in technical documentation, school inspections and ad-hoc roles.

Arteva Consulting Pvt.Ltd- NIIT Division | Technical Trainer | Apr 2019 - Sep 2019

Conducted engaging and comprehensive training sessions on various web development technologies, including DevOps, HTML, CSS, Java, and C, C++.

- Developed and delivered hands-on workshops to students, providing practical experience in building real-world web applications.
- Mentored and supported students in their projects, providing guidance and feedback to help them overcome challenges and improve their coding abilities.
- Demonstrated strong communication and presentation skills, effectively explaining complex technical concepts clearly and understandably.
